This is such sad news. I've bought birds from him years ago and still have that line. Such a nice, helpful and generous man. He will be missed.

In my thoughts & kindest memories. Got my first Buckeyes from him and my first trio of La Fleche. Poultry world is indebted to him for maintaining many rare breeds.

I'm so sorry to hear this. He was always so gracious with his time and was a great mentor when I was young and new in the hobby. He gave me my APA judging exam. He will be missed.

Great fellow with a significant contribution to poultry. One of the many rare breeds he kept, there is a lot of reason to believe his flock of Buckeyes had much to do with preventing the breed from going extinct.

It is sad to say that Duane Urch has passed away🙏. His funeral is Saturday.

Him and his wife Phyllis were always close with our family and he will be dearly missed. His contributions to the poultry industry are countless and what he did for so many breeds and keeping them going should always be remembered🙏
